

Relaxor®

((5)) Motor Massaging Seat Topper with Soothing Heat

Model
942

**OWNERS MANUAL and
OPERATING INSTRUCTIONS**

Dear Customer:

Thank you for purchasing the **Relaxor** 5-motor massaging seat topper with soothing heat.

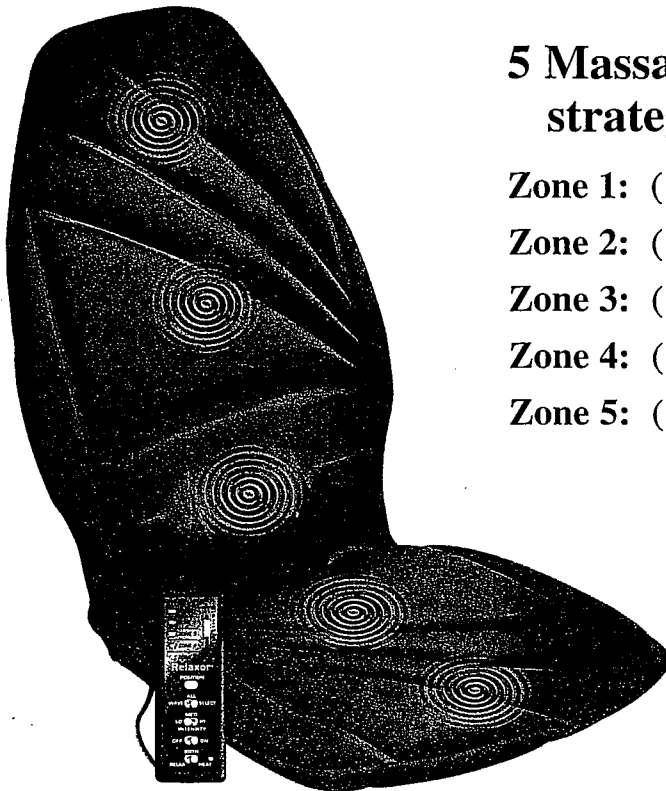

This massaging product, like our other fine products, is engineered for quality, comfort and safety. It is ergonomically designed for maximum support and provides many customized settings, allowing you to create your own personalized massage.

In order to enhance your enjoyment and maximize the benefits of your new purchase, please take a few moments to read the following instructions.

Relaxor®

FEATURES AND BENEFITS

Enjoy these Relaxing Benefits!

5 Massaging Motors in five strategically placed zones :

Zone 1: (1) one motor in the lower neck area

Zone 2: (1) one motor in the upper shoulder area

Zone 3: (1) one motor in the mid back area

Zone 4: (1) one motor in the lower back area

Zone 5: (1) one motor in the thigh area

- Soothing heat in the lower lumbar area.
- 14 customized massage settings.
- 3 styles of massage:
 - SELECT - isolates a specific massage zone.
 - WAVE - for a wave-like sensation.
 - ALL - an all over massage.
- LO-MED-HI intensity.
- Adjustable massage speed cycle.
- Automatic 15 minute shut-off timer.
- Ergonomically designed for comfort and support.
- Fits most chairs easily.
- May be used in the home, office or auto.
- AC and auto adaptor included.

RELAX-BOTH-HEAT

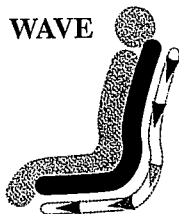

5 MASSAGING MOTORS:

ZONES:

- ① **1 Motor** - Lower neck area
- ② **1 Motor** - Upper shoulder area
- ③ **1 Motor** - Mid back area
- ④ **1 Motor** - Lower back area with soothing heat
- ⑤ **1 Motor** - Thigh area

3 DIFFERENT STYLES OF MASSAGE

WAVE

WAVE - Massaging motors cycle down and back to top in a wave-like sensation

- Slide the WAVE-ALL-SELECT button to WAVE
- Adjust the intensity and speed to your preference (see Intensity and Speed directions).

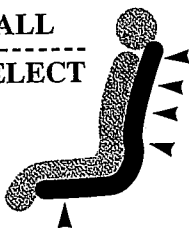

ALL - For an overall massage

- Slide the WAVE-ALL-SELECT button to ALL

SELECT - Isolates the individual massaging zone

- Slide the WAVE-ALL-SELECT button to SELECT
 - Adjust the intensity to your preference
- (Note: The LED light will show the zone that is active)

ALL
SELECT

INTENSITY - Choose LO-MED-HI for desired intensity.

SPEED - Adjust from down to up to control the cycling speed of the massaging motors. Lighted LEDs will show what region of the body is active with massage.

Relaxor®

OPERATING INSTRUCTIONS

OPERATING INSTRUCTIONS

1. Wand is permanently attached.
2. Leave the POWER switch on the COMMAND WAND in the OFF position. Put the RELAX-BOTH-HEAT switch in the RELAX position.
3. Plug the cord from the TRANSFORMER into the remaining receptacle coming from your product, and then plug the TRANSFORMER body into the electrical wall outlet. (120 volts-60Hz power.)
4. Sit on your seat topper and start by following the next instructions to familiarize yourself with the system operation.
5. Place the WAVE-ALL-SELECT switch in the SELECT position. Set the INTENSITY knob on LO.

Turn on the POWER switch.

You can now manually position the massage action to any one of five body locations. Each time you press the POSITION button you will move the massage action one position up or down, as indicated by the green lights on the COMMAND WAND. Choose the desired intensity by selecting either LO, MED, or HI.

6. Set WAVE-ALL-SELECT switch to WAVE. Slowly move the SPEED knob up and down to find the wave action you like best.

The green lights on the COMMAND WAND will flash in sequential order from top to bottom, then back up to top continuously repeating this cycle. The lights show the activation of the corresponding pulsing transducers and you will feel a gentle massaging action at the positions shown by the lights.

7. Move the WAVE-ALL-SELECT switch to ALL to get an overall massage.
8. Move the RELAX-BOTH-HEAT switch to HEAT, and after a short warmup time, enjoy comforting warmth in the lower back (lumbar) area. Now move the switch to BOTH and indulge in the ultimate combination of **Relaxor** massage and heat.

You have now completed all of the operational choices provided on the COMMAND WAND. Select any combination of the above described modes, intensities and heat.

The system will automatically shut-down after approximately 15-minutes of operation. To restart, simply move the POWER switch to OFF then back to ON.

Now close your eyes and enjoy your **Relaxor** product.

Note- It is normal for the COMMAND WAND to become warm during use. If your **Relaxor** System does not operate properly, or you need assistance for any reason, call:

IMPORTANT SAFETY INSTRUCTIONS

Read all instructions before using the 5-Motor Massaging Seat Topper with Soothing Heat

DANGER!

To reduce risk of electric shock:

1. Always unplug the product from the electrical outlet immediately after using and before cleaning.
2. Do not reach for a product that has fallen into water. Unplug immediately.
3. Do not use while bathing or in a shower.

WARNING!

To reduce risk of burns, fire, electric shock, or injury to persons:

1. Your **Relaxor** product should never be left unattended when plugged in. Unplug from outlet when not in use, and before putting on or taking off parts.
2. Use this product only for its intended use as described in this manual. Do not use attachments not recommended by the manufacturer.
3. Never operate the **Relaxor** product if it has a damaged cord or plug, if it is not working properly, if it has been dropped or damaged, or dropped into water. Contact your dealer for instructions on returning it for examination and repair.
4. Close supervision is necessary when this product is used by, on, or near children or disabled persons.
5. Do not use outdoors.
6. Keep the cord away from heated surfaces.
7. Do not operate where aerosol (spray) products are being used or where oxygen is being administered.
8. Use heated surfaces carefully. May cause serious burns. Do not use heated surfaces over insensitive skin areas or in the presence of poor circulation.
9. If you are under a physician's care and/or have a condition requiring the use of any medical device, please consult your health care provider prior to using this product.

MAINTENANCE AND CARE INSTRUCTIONS:

No user maintenance of this product is required. If the System does not function, check to be sure...

- (a) The TRANSFORMER is plugged into an electrical outlet.
- (b) The Transformer cord is plugged into, and fully engaged, in the receptacles.

If there is a malfunction of any kind, contact your dealer for instructions on returning it for examination and repair.

How To Clean

You may clean the seat topper with a damp cloth and warm water.
DO NOT SATURATE. Allow adequate time to dry.
