If cleaning becomes necessary, disconnect the appliance from the electrical outlet, wipe unit with a damp cloth. When not in use, unplug the appliance. Handle cord carefully, avoid jerking or straining at plug connections. Simply put Jewelry Spa™ back in its original box and place in a safe, dry location.

SHORT CORD INSTRUCTIONS

A short power-supply cord (or detachable power-supply cord) is provided to reduce the risk resulting from becoming entangled in or tripping over a longer cord.

Longer detachable power-supply cords or extension cords are available and may be used if care is exercised in their use.

If a longer detachable power-supply cord or extension cord is used, (1) the marked electrical rating of the extension cord should be at least as great as the electrical rating of the appliance, and (2) the cord should be arranged so that it will not drape over the counter top or table top where it can be pulled on by children or tripped over unintentionally.

POLARIZED PLUG

This appliance has a **polarized plug** (one blade is wider than the other), as a safety feature. This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.
