

Melitta MEMB1B/W Mill/Brew Assembly Lid Removal Instructions

In order to remove the Mill/Brew Assembly Lid for replacement, 4 screws will need to be removed in order to attach the new part.

- Remove the spreader (#3) by pushing down on the three pins located on the sides. (See 3a, 3b, & 3c).
- Remove the two philips screws near the base of the spreader tube. (See 2a & 2b).
- Close the Mill/Brew Assembly Lid. Locate the "Warning" sticker on the top of the Mill/Brew Assembly Lid and find the two holes that the sticker covers.
- Use a small philips screwdriver to puncture the sticker seal directly over the holes and remove both screws.
- Pull the left side of the lid up first and slide cover off and replace with new lid.
