# YOUR ESSENTIAL NEEDS™ CAN OPENER

PRODUCT MAY VARY SLIGHTLY FROM ILLUSTRATION

## ***POLARIZED PLUG***

This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug will fit into a polarized outlet only one way. If the plug does not fit fully into the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to modify the plug in any way.

**IMPORTANT NOTES: To ensure continued efficient performance, keep the Cutting Blade clean. Can Opener should be turned off for one minute after operating for 5 minutes.**

## ***SHORT CORD INSTRUCTIONS***

A short power-supply cord is provided to reduce the risk resulting from becoming entangled in or tripping over a longer cord.

Longer power-supply cords or extension cords are available and may be used if care is exercised in their use.

If a longer power-supply cord or extension cord is used, (1) the marked electrical rating of the extension cord should be at least as great as the electrical rating of the appliance, and (2) the longer cord should be arranged so that it will not drape over the counter top or table top where it can be pulled on by children or tripped over unintentionally.

## **TO USE CAN OPENER**

1. Raise lever, place can under the Guide Bar and against the Geared Wheel. (See Diagram on page 2 to identify parts.)
2. Press down on lever to pierce lid of can. This automatically starts the cutting action. The Can Opener will continue to cut until the lid is completely severed from the can.
3. Grasp the can, then raise the lever to release the can.
4. Carefully remove lid from the Magnet; use caution to avoid injury from edge of lid.

# USER MAINTENANCE INSTRUCTIONS

This appliance requires little maintenance. It contains no user serviceable parts. Do not try to repair it yourself. Refer it to qualified personnel if servicing is needed.

## ***TO CLEAN:***

Unplug unit from electrical outlet. To remove lever, hold Can Opener facing you. Lift the lever upward and gently pull toward you.

**WARNING! Handle the lever carefully, as the cutting blade is exposed and very sharp.**

Wash lever in warm, soapy water. Rinse and dry thoroughly. Wipe outside surfaces of unit with a damp cloth.

**To replace lever,** hold the Can Opener facing you with the lever in the lifted position, and put the long pivot into the pivot hole. (See illustration above.) Be sure to push the long pivot completely into pivot hole. Then let lever drop back onto top of Can Opener. If you do not push lever completely into hole, it will not drop back onto top of Opener.

## ***TO STORE:***

Unplug Can Opener and store in its box or in a dry place. Store the cord loosely coiled; never wrap it tightly around the unit. Do not put any stress on cord where it enters the appliance as it may cause the cord to fray and possibly break.
