Features

Speed controls: A wide variety of foods, from milk shakes to crushed ice, can be processed utilizing the Speed Controls and PULSE action.

2-piece Lid and Glass Blending Jar with Stainless Steel Blade Assembly: The Glass Blending Jar allows you to safely process hot foods. Remove the Measuring Cap from the Lid to allow steam to escape. Conveniently add additional ingredients through the opening of the 2-piece Lid during processing.

Crushing ice: Add 1 cup of ice, about 9 cubes, to the glass jar. Press PULSE several times and in seconds the ice will be fluffy and snow-like.
