HOW TO USE YOUR MANICURE/PEDICURE SET

HOW TO RECHARGE

1. **CORDLESS USE:** For the first use you must charge the unit for a least 24 hours to ensure that the batteries are fully charged.
2. The normal recharge time is 6 hours for a full charge.
3. To recharge, turn the Switch of 0 (OFF position). Connect unit to the Adapter cord and plug the Adapter into the electrical socket. The LED- charging indicator will light up to ensure proper charging. Unplug Adapter before use.

To connect the Attachments to the Main Body, directly push them in. To remove them, pull them off from the head of the unit. Make sure Main Body Slide Switch is in the OFF position before connecting and removing Attachments.

DIRECT-DRIVE BY ADAPTER

1. The unit can be used as direct-drive with the Adapter supplied with the unit when the batteries are not charged. **Use only the Adapter (P/N 50211) supplied with this unit.**
2. Connect the unit to the Adapter cord and plug the Adapter to the electrical socket for direct use.
3. A 30 second charge-up time is required with usage of the direct-drive feature. This enables the unit to run at full power.

MANICURE/PEDICURE ATTACHMENTS (Con't.)

(FOR BETTER PERFORMANCE OF THE PRODUCT, DO NOT BATHE YOUR FEET BEFORE TREATMENT, DO IT ONCE THE PEDICURE IS COMPLETED.)

Here are some suggestions on how to use the different Attachments in order to ensure a salon perfect manicure or pedicure.

1. **Large Skin Smoothing Disks:** To remove dead skin from hands and feet. For rough skin use the Rough Disk (jagged edges). For smoother skin use the Coarse Disk (round dots). Lightly apply the Disk to rough skin areas on the soles, at the heel and even on the hands. Move manicure tool in a back and forth motion, gently exfoliating the skin surface.
2. **Large Filing Cone:** To smooth calluses, corns and coarse skin. Gently apply the filing cone to the skin, moving in a back and forth motion while covering the rough skin areas.
3. **Thick Point Filing Cone:** To file and treat the surface of thick toenails.
4. **Thin Point Filing Cone:** To remove dead skin and treat ingrown nails. Suggested use is to move the instrument from the outside towards the inside of the nail bed.
5. **Small Shaping Disks:** To file and sculpt nails. For soft or fine nails, use the Fine Filing Disk (fine texture). For thicker, stronger nails use the Coarse Disk (round dots), and finish by using the Fine Filing Disk.
6. **Cuticle Lifter:** Gently apply the Cuticle Lifter, using caution to not allow the tip deep under the skin. Start on one side of the nail and work across to the other side of the nail, then back again.
7. **Cleaning Brush:** Can be used to clean nails at end of filing session. The Brush can also be used to clean away any residual cuticle, and prepare the nail for buffing.
8. **Soft Padded Buffing Disk:** Used to lightly polish the nails at the end of the manicure/pedicure treatment. The Disk can be used to smooth out the filed nails and may add shine.
9. **Cuticle Stick:** Can be used to push back cuticles manually. It can be carried in a purse for quick touch-ups while on the go.

Finish your treatment by soaking hands in warm, soapy water, and then apply your favorite moisturizer or lotion. This will help to keep hands hydrated and protect nails.

MAINTENANCE AND CLEANING

- 1. The Power Adapter provided with this unit has been especially designed for the RELAXOR® Nail Care. If damaged, it must be replaced with the exact same Adapter (P/N 50211) . See warranty instructions at the end of this booklet for instructions on how to contact RELAXOR® Consumer Service.*
- 2. Avoid dropping the unit to prevent internal parts from being damaged.*
- 3. Always unplug the Adapter before cleaning the unit.*
- 4. Never use liquids or abrasive cleaners to clean the housing or case of this unit. Just wipe off with a damp cloth.*
- 5. The Attachments can be cleaned from time to time with rubbing alcohol.*
