## HOW TO ASSEMBLE YOUR CALMING POOL®

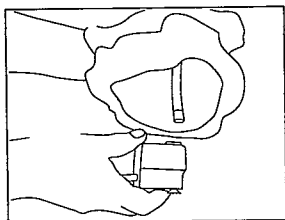

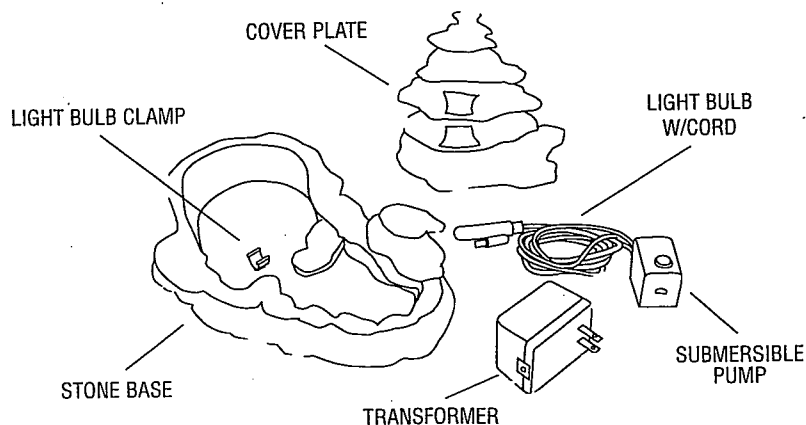

Figure (1)

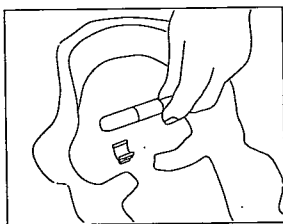

Figure (2)

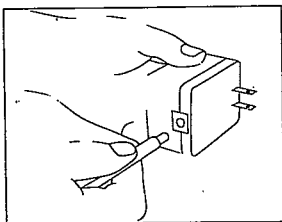

Figure (3)

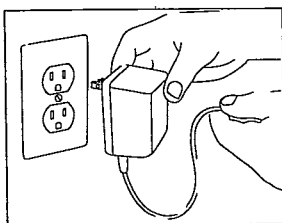

Figure (4)

### ASSEMBLY INSTRUCTIONS

**Step 1:** Carefully unpack the contents from box. Place the stone base on a level surface.

**Step 2:** Attach pump to the tube inside the wall structure. (See figure 1)

**Step 3:** Clamp the light bulb into the light bulb clamp located at the bottom of the stone base. (See figure 2)

**Step 4:** Plug the light bulb cord into the transformer as shown in figure 3.

**Step 4:** Fill with distilled water approximately 1/2" to 1/4" below the rim of the stone base.

**Step 5:** Plug the transformer to the wall outlet. For safety make sure cord dips below the outlet. (See figure 4)

**Note:** Do not operate pump without water.

### HELPFUL TIPS:

**Adding water:** You will need to add water to compensate for evaporation. Always use clean distilled water if possible to reduce mineral build up. Soft water may also be used in place of distilled water.

**Adjusting water flow:** The pump has a slide that adjusts the flow of water. Experiment with the slide bar to get your desired effect. If the pump makes a gurgling sound, it is an indication that the water level is too low. For additional information, see pump manual.

**How to clean:** Unplug from power source, then drain water and clean the bowl and top cover with mild soap and clean soft cloth.

# IMPORTANT SAFETY INSTRUCTIONS

Read all instructions before using the **Relaxor** Calming Pool®

## DANGER!

### To reduce risk of electric shock:

1. Always unplug the product from the electrical outlet immediately after using and before cleaning.
2. If the product shows any signs of abnormal water leakage, immediately unplug from the power source.
3. Carefully examine the device after installation. It should not be plugged in if there is water on parts not intended to be wet.
4. To avoid the possibility of the plug or wall outlet getting wet, make sure the cord dips below the outlet.

## WARNING!

OPERATE  
YOUR  
SYSTEM  
ACCORDING  
TO THIS  
MANUAL

### To reduce risk of electric shock, or injury to persons:

1. Unplug your **Relaxor** Calming Pool® from outlet when not in use, and before putting on or taking off parts.
2. Use this product only for its intended use as described in this manual. Do not use attachments not recommended by the manufacturer.
3. Never operate the **Relaxor** Calming Pool® if it has a damaged cord or plug, if it is not working properly, if it has been dropped or damaged, in any manner. Contact your dealer for instructions on returning it for examination and repair.
4. Close supervision is necessary when this product is used by, or near children and disabled persons.
5. Do not operate pump and light outside of water-filled bowl. Do not touch light bulb at any time.

## MAINTENANCE INSTRUCTIONS:

No user maintenance of this product is required. If the System does not function, be sure the transformer is plugged into and fully engaged in the electrical outlet, and that the transformer cord is connected to the pump.

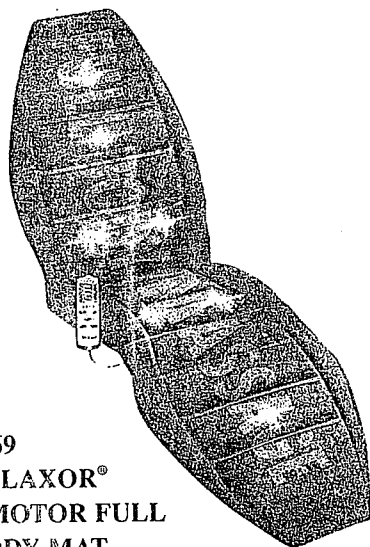

If there is a malfunction of any kind, contact your dealer for instructions on returning it for examination and repair.

Calming Pools® are for indoor use only. Water sculpture could occasionally splash, that may be corrected by adjusting the water pump slide. JB Research, Inc. cannot be responsible for damages due to splash or customer negligence.
