

Integrity is the word best to describe the lamps by Stiffel. The pride and skill of our artisans is evident throughout the entire collection in the meticulous detailing, superb designs and fine quality. You will find a series of distinguished traditional and contemporary designs, each a reflection of the good taste inherent in the Stiffel name. Designed and constructed to last throughout the years, Stiffel lamps are truly today's treasures and tomorrow's heirlooms.

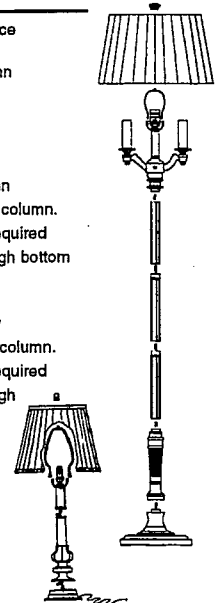

#### Lamps with Harp Assembly

- 1) Move sleeves up and snap harp into holder.
- 2) Carefully remove plastic covering from shade. All plastic must be removed.
- 3) Place hole of shade around threaded portion of harp.
- 4) Screw on Finial clockwise.
- 5) Screw in the proper wattage light bulb.
- 6) Plug lamp into outlet.

#### Knock Down Lamp Assembly

- 1) Place base on flat surface
- 2) Screw the bottom column clockwise onto the base. Pull excess wire through bottom of the base.
- 3) Screw the middle column clockwise onto the bottom column. Pull excess (may not be required for table lamps) wire through bottom of the base.
- 4) Screw the top assembly clockwise onto the middle column. Pull excess (may not be required for table lamps) wire through bottom of the base.
- 5) Assemble shade as required.
- 6) Screw in the proper wattage light bulb.
- 7) Plug lamp into outlet.

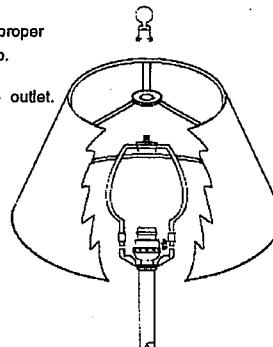

**For Your Safety: Do not plug lamp into power source before assembly is complete.**
